## Profile

Naxxatoe is a IT Security Researcher / Analyst currently resident in Austria. His Technical Skill and Abilities as well as his knowledge about IT Security lead him to travel the world and give bleeding edge talks at various IT Sec Conferences and work as a Consultant for various Global Companies. Combining the best from both the Ethical Hacking and the Dark Arts, he is able to provide good and balanced Advice on Potential Threats / Attacks and Counter measures.

## Skills

IT Security Testing Skills (Finding Vulnerabilities, developing Exploits, performing penetration tests), Technical skill (Various Programming languages, in depth knowledge about Linux, BSD, Solaris, Windows internals and security issues), Malware Analysis ( Analyzing Binaries, building and running HoneyNet's, BotNet tracking) Experience as well as Physical Security Skills (Lock-picking, Social Engineering). All of this gets rounded up with Public Speaking / Training and Consulting Experience.

## Certifications

Current: None  
Desired: CCNA (within this year), CEH (within this year)

- Hack.lu - <http://www.hack.lu/>
- MetaReinMain Chaos Days 111b - <http://mrmcd.metarheinmain.de/>
- Chaos Singularity - <http://cosin.chaostreff.ch/>
- ICMP4 - <http://www.icmp4.de/>
- Linuxwochenende - <http://linuxwochenende2008.luga.at/>
- Magdeburger Open Source Tag - <http://www.open-source-tag.de/>
- IT Sec X - <http://itsecx.fhstp.ac.at/>
- 0 Sec - <http://0x736563.org/>

### Speaker the following Conferences - 2007

- Deepsec Security Conference - <http://deepsec.net/>

## Previous Work at Companies

Having worked as a freelancer for quite some time, this list is only available upon request, as it is quite long.

## Education

9 Years of basic education in Austria, everything else is self education.

Mariahilferstrasse 51/4/28  
Vienna / Austria  
T +43 664 52 11 403  
naxx@nicenamecrew.com  
<http://nicenamecrew.com>

## Work Samples

- NiceNameCrew: (a nonprofit it security research team) - <http://nicenamecrew.com/>
- Malwarepunk: (a modular malware analysis framework) - <http://malwarepunk.com/>
- Crackfoo: (a password lookup service based on databases+rainbow-tables) - <http://crackfoo.nicenamecrew.com/>
- Douf00: (slim and lightweight presenter's screen for Linux/BSD - together with Martin\_Natano) - <http://data.nicenamecrew.com/tools/DouF00/DouF00-current.tar.gz>
- Portscan.at (Portscan yourself, anytime anywhere) - <http://portscan.at/>
- NoMoreCrypto: (Rainbow Table Generation and Exchange/Distribution Service) - <http://nomorecrypto.com>
- SecurityByCandleLight: (regular it security meet-up) - [http://metalab.at/wiki/Security\\_bei\\_Kerzenschein](http://metalab.at/wiki/Security_bei_Kerzenschein)

## Papers

- Malware for Soho Routers: <http://data.nicenamecrew.com/papers/malwareforrouters/paper.txt>
- PhpMyAdmin Hacking Basics: <http://data.nicenamecrew.com/papers/pma/phpmyadmin.txt>
- PhpMyAdmin Hacking Advanced: <http://data.nicenamecrew.com/papers/pma/pmaadvanced.txt>

## Other

- PhpPress 0.2.0 Remote File Inclusion: [http://data.nicenamecrew.com/exploits/phpress0.2.0\(adisplay.php\)LocalFileInclusion.txt](http://data.nicenamecrew.com/exploits/phpress0.2.0(adisplay.php)LocalFileInclusion.txt)
- Txx Cms Remote File Inclusion: [http://data.nicenamecrew.com/exploits/Txx\\_Cms-FileInclusion.txt](http://data.nicenamecrew.com/exploits/Txx_Cms-FileInclusion.txt)
- Ossigeno-Script Remote File Inclusion: [http://data.nicenamecrew.com/exploits/Txx\\_Cms-FileInclusion.txt](http://data.nicenamecrew.com/exploits/Txx_Cms-FileInclusion.txt)

I never really cared about releasing any exploits in the past, so this is why this list a bit short, this will change soon.

## Referrals

To be added soon.
